(taken on 17th June 2019 at 1 Year and 1 Month of age)

Fibre Testing Authority: Art of Fibre

Description:

This week we will be introducing our stud males who are available for outside matings this summer. We will start with our new import from Germany with new genetics for the Uk. A very impressive male indeed!

⭐️OLD Massimo d' Amour⭐️ is the first and darkest son of OLD Te Amour and is now the first one to enter the UK alpaca industry.

His pedigree carries European elite genetics.

His father is OLD Te Amour. He clearly is one of the most impressive males in Europe. He is well known around the world for his outstanding fleece characteristics and longevity of those fleece characteristics. He is extremely dense, fine and uniform. His fleeces cracks open like pages in a book and shines like Luster in a Suri. OLD Te Amour won over 70 Championships in different countries including 17 supremes. 2016 and 2019 he has led Europe to a never seen popularity. He won Color Champion Fawn male, Best Crimp, Best Brightness, Spirit of the Industry and Highest Score International on the biggest fleece show in the world (AOA Fleece Show, USA). 2 times his fleece was awarded with more than 90 points. Once with his 1st fleece and once with his 5th fleece.

On his dam side he is going back to some of the best Rural Alianza Lines. His dam AH Peruvian Mable, a beautiful true to type fawn female, is a daughter of AH Peruvian Vengador, who was a multiple Grand Champion in the Benelux Countries and one of the best males to his time. Still his daughters belong to the best producers on continental Europe.

OLD Massimo d' Amour is an incredible male with a fine, super dense fleece. His fibres are highly aligned and show excellent uniformity into the staple and across the body. We did a grid section of his fleece in 4 places and all came out roughly the same micron. All fibre characteristics are matched with excellent substance of bone, coverage and a macho presence.

He has just started his working career at Sheriff and we are awaiting his first cri this summer.
